## Your Skipper and Instructor

Wm.E. (Bill) Henry has been an avid yachtsman for over twenty years. He has extensive sailing experience on Lake Ontario and has cruised the Hebridean Isles of Scotland, the British Virgin Islands, and Bermuda.

He is well versed in the theory and practice of cruising under sail; including yacht handling under sail and power, anchoring, traditional pilotage, celestial navigation, and electronic aids to navigation.

Bill's formal education includes undergraduate degrees in Science (B.Sc.), Education (B.Ed.), and a graduate degree in business (M.B.A.).

He is skilled at dealing with the adult learner and in delivering an effective and enjoyable learning experience.

## S.V. Saorsa II

*Saorsa II* is a Niagara 35, designed by Mark Ellis and built by Hinterhoeller Yachts in St. Catharines, Ontario in 1979.

The Niagara 35 has earned a reputation as a fast, seaworthy, and easily managed blue water cruising yacht. She has a functional deck layout and sail plan with wide side decks, molded bulwarks, a large foredeck, and a masthead sloop rig. These characteristics provide an excellent platform for learning and practicing the skills needed to cruise safely and comfortably.

Under our ownership, *Saorsa II* benefits from careful maintenance and frequent equipment refits and

upgrades. Over the past few years, she has received a new engine, new electrical wiring, new head and plumbing, new refrigeration, new running rigging, new sails, and electronic navigation equipment.

She is equipped with all necessary safety and emergency equipment.

## Your Learning Experience

Cruising under sail is challenging, exciting, and a lot of fun. The adventure is safer and more enjoyable when the Skipper and Crew are skilled, knowledgeable, and confident within themselves and in one another.

With Venture Sail, you will learn the skills and acquire the knowledge that will allow you to cruise aboard a mid-sized sailboat in comfort and in safety.

You will learn in the most enjoyable and effective way possible, by sailing with an experienced Skipper who is also a skilled Educator and Trainer.

Whether you choose a single day outing, a week-end aboard, or a six day excursion, you will learn about sailing, and yourself.
